3-days training seminars “Advanced Displays”

Nov. 14 – Nov. 16, 2006

Université Bordeaux 1

Bordeaux, France

**For the first time in Europe,
a training seminar on “advanced displays” is organised on a European scale
in the frame of  the advanced display research coordination action.**

About Université Bordeaux 1, Domaine du Haut Carré, Talence.

Beside famous Château Margaux vineyards, this “domaine” is an historic priory, where Bordeaux University has installed some of its spin-off companies (www.u-bordeaux1.fr/SAIC),
A gala dinner is scheduled on Tuesday evening.

Local Contact: Laurence VIGNAU (l.vignau@enscpb.fr)

For transportation by air, by train, by bus, by road (and maps):

see for more information, www.u-bordeaux1.fr/SAIC

Program

The training seminar is composed of three one-day sessions of three lectures each one, given by selected European experts, covering the following topics:

Tuesday, November 14, 2006: displays based on phosphors excitation (CRT, PDP and FED (SED-CNT) panels).

8h30	Welcome
9h15 – 10h45	Seeing displays, merits and shortcomings, <i>by Karlheinz BLANKENBACH, Pforzheim University</i>
10h45 – 12h15	PDPs versus CRTs, <i>by Sebastien WEITBRUCH, Thomson Brandt</i>
13h30 – 15h00	Future FED panels based on CNT electron sources, <i>by Vu Thien BINH, Université Lyon 1</i>
15h15 – 16h45	Q&A on “phosphor displays”, <i>round table with all speakers, chairman : Karlheinz BLANKENBACH</i>

Wednesday, November 15, 2006: displays using light source spatial modulation, direct view LCDs and micro displays

9h00 – 10h30	Direct-view LCDs, <i>by Jose MAGARINO, Thales Avionics LCD</i>
10h45 – 12h15	Micro-displays, <i>by André VAN CALSTER, Ghent University</i>
13h30 – 15h15	Visit of Château "Haut Brion", "Premier grand cru classé"
15h30 – 17h00	Active Matrix technologies, <i>by Didier PRIBAT, CNRS/Ecole Polytechnique</i>
17h00 – 18h30	Q&A on “LCDs”, <i>round table with all speakers, chairman : Jose MAGARINO</i>

Thursday, November 16, 2006: the organic route to low-cost & flexibility : OLED and large area “plastic” electronics.

9h00 – 10h30	Organic electroluminescent materials, <i>by Dr Janos VERES, Merck Chemicals UK</i>
10h45 – 12h15	Organic Light Emitting Displays and flexible displays, <i>by Christophe PRAT, Thomson</i>
13h30 – 15h00	Plastic Electronics as an Enabling Technology for e-Paper Displays, <i>by Seamus BURNS, Plasticlogic</i>
15h15 – 16h45	Q&A on “organic route”, <i>round table with all speakers, chairman : Janos VERES</i>

Each day program includes a time dedicated to “Questions & Answers” and open discussions driven by the chairman: trainees will have the opportunity to talk about their problematic about advanced displays and are likely to attend with prepared questions or problematic from their own experience. Answers will be commented by the team of speakers.

More information, including detailed program of the lecture contents, can be found on the website:

www.adria-network.org

Pour les stagiaires français : Ce stage peut faire l'objet d'une convention au titre de la formation professionnelle entre votre organisme et le Club-Visu, formateur agréé sous le N° 72330683333.

Registration Form

Documents to be completed, signed and sent to:
